

# HAPPOLD STUDENT SCHOLARSHIP

STUDENT SPONSORSHIP WITH THE HAPPOLD FOUNDATION FOR STUDIES IN THE BUILT ENVIRONMENT

Westham Stadium, UK

Lake Bunyonyi School, Uganda

Wadi Hanifah, Riyadh, Saudi Arabia

Design College, Central College

Battersea Power Station Redevelopment, UK

**W**ith financing university study often being a significant challenge, The Happold Foundation aims to provide support for students who are striving to take up a career in the planning, design and development of both the natural and the built environment. Alongside this, we think that experiencing first hand what it is like to work in engineering is really valuable, so we offer students the chance to work in a BuroHappold office to get more insight into real life projects.

Our Happold Student Scholarship offers students entering their final year of undergraduate study (graduating June 2019) scholarship funding plus an 8-week summer placement in one of BuroHappold's offices. Over the last two decades, we have been able to help over 400 students access scholarships.

BuroHappold Engineering is a multidisciplinary engineering consultancy founded in 1976 by the late Sir Ted Happold. It provides a broad portfolio of design and consulting engineering services and strategic advice for the built environment across the world. The practice has contributed to the design and construction of some of the world's most prestigious developments in the built environment including a range of major buildings, bridges and masterplans:

- Battersea Power Station Redevelopment, UK
- Olympicopolis, Queen Elizabeth Olympic Park, UK
- Riverside Museum Glasgow, UK
- XRL High Speed Rail Terminus, Hong Kong
- New City Xinjiang Autonomous Region, China
- Crystal Bridges Museum of American Art, USA
- The Louvre Museum, Abu Dhabi
- Anaheim Regional Transportation Intermodal Center, USA
- Copernicus Science Centre Warsaw, Poland
- Wadi Hanifah remediation and landscaping, KSA
